## VIDEO PRODUCTION

RESUME NO.1

TORONTO ONTARIO, CANADA

FREE TO READ

Robin has just over ten years of experience in the film industry. Throughout the years, he's juggled crew work with artistic endeavors around the city of Toronto. Ranging from experimental films to narrative shorts and features, be it here in Toronto or out west in Winnipeg where he attended University. Robin has always grounded himself to the arts, here in Canada, with goals and aspirations to keep creating while reaching for greater mastery of storytelling and to boldly go into the realm of narrative and storytelling. His education always ongoing, finding solidity in what he hasn't learned and new paths to grow. Film has taken up most of his waking life, yet that's the way he likes it. He has experience with a wide range of leading industry cameras, lights, visual effects and editing software, He also offers expert driving skills, an MTO certified licensed driving-instructor - need driving lessons? Robin has great ambition, but levels himself with hard work and focus on the productions and people surrounding him.
